

## **Breast, Cervical, and Colon Health**

### ***June 2014***

The Department of Health administers the Breast, Cervical, and Colon Health Program for low-income men and women in Washington State. Regional contractors around the state provide services. The program is supported by federal funding during a five-year grant period that is approximately \$27.5 million. Every \$3 of federal funding is matched with \$1 of state and/or local in-kind resources. For the 2013-2015 biennium \$2.6 million in state funds is available for screening, coordination, and outreach services. The program is also supported by private funding approximately \$1 million each fiscal year from three affiliates of the Susan G. Komen for the Cure.

**Mission/Purpose:** Provide screening and diagnostic services that result in the early detection of breast, cervical, and colorectal cancer. Transition diagnosed clients onto the Medicaid Breast, Cervical and Colon Health Treatment Program administered by Health Care Authority (HCA).

**Target Population:** Men ages 50 to 64 and women ages 40 to 64 who are at or below 250 percent of the federal poverty level, and are uninsured or underinsured.

#### **Services**

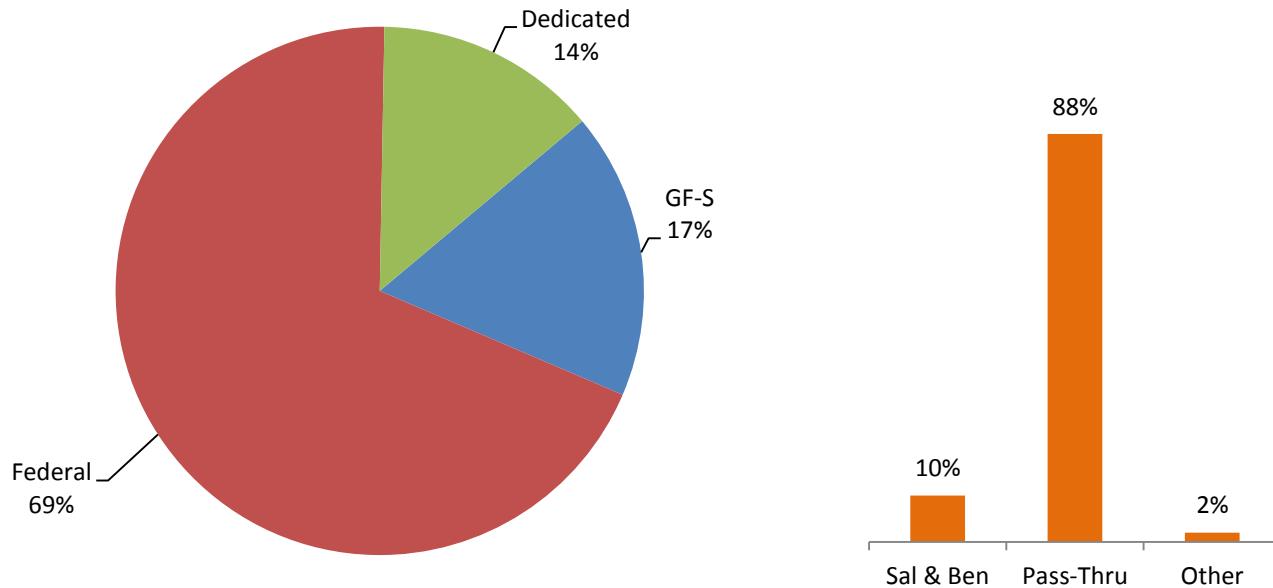

- Education and awareness
- Outreach and recruitment
- Clinical services
- Patient navigation and case management
- Evaluation of service delivery components
- Data management and quality assurance
- Provide linkage to treatment services if cancer is detected

#### **Stakeholders**

- Washington CARES About Cancer Partnership's Breast and Cervical Cancer Task Force
- Three affiliates of Susan G. Komen<sup>®</sup>
- American Cancer Society
- Six program prime contractors (includes three local health jurisdictions)
